-  Ratnapura, Sri Lanka

STRENGTHS

- Quick Learning
- Problem Solving
- Teamwork
- Good Communication

CERTIFICATIONS

- Certificate in Java Fundamentals
- Foundational C# with Microsoft
- HackerRank Certified Java (Basics)
- HackerRank Certified JavaScript (Basics)

TECHNICAL SKILLS

Web Development

- HTML
- PHP
- CSS
- JavaScript (Basics)

Programming & Backend

- Java
- Spring Boot
- C# (Basics)

Database

- MySQL
- Oracle Database
- SQLite
- MongoDB (Basics)

CAREER OBJECTIVE

Motivated Software Engineering student seeking an internship to gain hands-on experience in web development, strengthen my skills in PHP and MySQL, and contribute to real-world projects.

LANGUAGES

- English (Fluent)
- Sinhala
- Tamil

EDUCATION

Higher National Diploma In Software Engineering (Current)

School of Computing | National Institute Of Business Management

BSc (Hons) In Software Engineering (Progressing after HND)

PROJECTS

- School Management System (Web Application)**
HTML | CSS | PHP | MySQL
 - Built a fully functional school management platform supporting student records, attendance, staff details, and admin features.
 - Designed optimized database tables and implemented secure CRUD operations.
 - Utilized sessions, validation, and role-based access for improved security.
 - Improved UI for better user experience and clarity.
- Pizza Delivery Android Application**
Java | Android | Google Maps API | SQLite
 - Developed an Android app for pizza ordering with location tracking and delivery assistance.
 - Integrated Google Maps API for selecting customer location and visualizing routes.
 - Created smooth navigation, cart features, and SQLite-based local storage.
 - Focused on responsive UI and fast loading times.
